INTRODUCTION

The Illinois Uniform Crime Reporting Program

The Illinois Uniform Crime Reporting (I-UCR) Program was developed in 1971 and implemented on January 1, 1972. The Illinois State Police was given the responsibility to act as the central repository for crime statistics. Reporting crime statistics is mandated by Chapter 50 of the Illinois Compiled Statutes (ILCS), 709/5.

The Uniform Crime Reporting Act. The Department shall be a central repository and custodian of crime statistics for the State and it shall have all power incident thereto to carry out the purposes of this Act, including the power to demand and receive cooperation in the submission of crime statistics from all law enforcement agencies.

Reporting law enforcement agencies submit data on a monthly basis to the I-UCR Program. Jurisdictions mandated to participate include villages, municipalities, counties, colleges, universities, park districts, railroads, forest preserves, hospitals, and other miscellaneous agencies throughout Illinois.

Index Crime offenses, Index Crime arrests, and Drug Crime arrests are mandated to be reported by law enforcement agencies. In April 1996, the Illinois State Police began the collection of additional crime statistics mandated by state and federal statutes. These included Domestic Offenses, Attacks Against School Personnel, and Hate Crimes. Crimes Against Children were also reported voluntarily to the I-UCR Program.

In 2010, the I-UCR Program transitioned to Index Crime reporting guidelines compliant with the Federal Uniform Crime Reporting (UCR) Program. Not all previously participating reporting agencies have successfully transitioned to the revised reporting guidelines. In 2011, 754 agencies submitted crime statistics as compared to the 903 agencies who submitted crime statistics prior to the transition to the Federal UCR Program reporting guidelines. Crime statistics submitted by agencies for the reporting year failing to adhere to the revised reporting guidelines and/or submission process were not accepted, and not represented in the publication. This exclusion impacts both county-wide and state-wide totals. Additional information regarding the revised reporting guidelines and subsequent Program impact is provided in detail on pages 8 and 9.

In 2014, the collection of Crimes Against Children was discontinued. Attacks Against School Personnel was combined with additional school-related statistical categories creating School Incident Reporting. Index Crime reporting was enhanced to comply to the Federal UCR Program's additional collection of the human trafficking offenses of commercial sex acts and involuntary servitude, and revision of the definition of forcible rape to rape.

The collection of Supplemental Homicide Data and Arrest Related Deaths began in 2016 as mandated by the ILCS.

In 2017, the collection of Officer Non-Fatal Shootings began as mandated by the ILCS, bringing the total number of mandated crime statistic reporting elements or categories to seven.

Complete reporting guidelines for each of the mandated reporting elements can be found on the I-UCR Program website at <https://isp.illinois.gov/crimereporting/>.

NOTE: There is potential for discrepancies between specific agency data statistics presented in *Crime in the United States 2020* versus *Crime in Illinois 2020*. This is because the statistics presented in this publication represent data submitted to the I-UCR Program as of March 31, 2020. The statistics in *Crime in the United States 2020* represent data submitted to the Federal UCR Program as of March 18, 2020.

Crime Statistics Interpretation Consideration

When comparing the crime statistics of one agency to those of another, many factors should be taken into consideration before drawing conclusions. Some conditions affecting the type and volume of crime are:

- Whether or not the reporting agency adhered to the revised offense definitions and applied revised scoring principles in the compilation of statistics
- Whether or not the reporting agency was complete in reporting for the entire year
- Population density and degree of urbanization
- Variations in composition of the population, particularly youth concentration
- Stability of population with respect to residents' mobility, commuting patterns, and transient factors
- Modes of transportation and highway system
- Economic conditions, including median income, poverty level, and job availability
- Cultural factors and educational, recreational, and religious characteristics
- Family conditions with respect to divorce and family cohesiveness
- Climate
- Effective strength of law enforcement agencies
- Administrative and investigative emphases of law enforcement
- Citizens' attitudes toward crime
- Crime reporting practices of citizens

Guard against direct agency-to-agency comparisons when analyzing I-UCR statistics. Such comparisons could be misleading unless demographic differences between jurisdictions are taken into account. Every community has unique social, ethnic, and economic factors which may affect its crime statistics. These dissimilarities may bias the results of any comparative analysis between agencies. The state of crime within a jurisdiction is complex and cannot always be defined based on statistics alone, as it might be when comparing one agency to another. The definition of jurisdiction itself may vary between agencies, as evidenced by railroad agencies and state agencies whose jurisdictions are comprised of non-geographical areas.

In addition, uniform crime reporting statistics reflect "offenses known to police." In other words, these crime counts and rates only reflect information on crimes reported to police, not necessarily all crimes that occurred. Propensity to report a crime varies by the type of crime and the individual characteristics of the victim.

In general, the decision to use any indicator for analysis purposes must be made with care. The statistical indicators presented within this publication have utility for law enforcement administrators; however, they must be used with caution. No single indicator is sufficient for thorough crime analysis. Instead, decisions law enforcement administrators are called upon to make require a multifaceted, analytical approach.

I-UCR Reporting Agencies

Of the over 1,000 law enforcement agencies in Illinois, 722 agencies reported 2020 statistics as compared to the 734 agencies who reported 2019 statistics. Noncompliant agencies failed to report statistics using submission protocol, submit statistics compliant to reporting guidelines, or submit any statistics, or the agency reported through an intermediary agency (sheriff’s office, police department, etc.).

Prior to publication, reporting agencies are provided the opportunity to review and adjust data during the annual verification process. There are oftentimes changes to statistics initially submitted based on the agency’s continued investigation of an incident. Additionally, a common error detected during verification is related to data entry (i.e. a ten (10) is entered and submitted instead of a one (1)). The annual verification process has been in place for thirty years; however, only 138 of the 722 reporting agencies completed the 2020 verification process.

Agency Type	2020
Municipalities	581
Sheriffs’ Offices	84
Colleges & Universities	34
State Agencies	3
Railroads	5
Park Districts	8
Forest Preserves	4
Other Agencies	3
TOTAL	722

The Crime Index/Crime Rate

A majority of the offense and arrest statistics in this publication focus primarily on what are known as Index Crimes. The historical collection of eight crime categories that make up this index was expanded to ten crime categories in 2014 with the addition of two human trafficking offense categories. This index of crimes provides an indication of the extent serious crime occurs in the jurisdiction, region, or state. Five of the Index Crime categories are crimes against persons including criminal homicide, rape, aggravated battery/aggravated assault, human trafficking commercial sex acts, and human trafficking involuntary servitude. The five remaining Index Crime categories are crimes against property including robbery, burglary, theft, motor vehicle theft, and arson.

The I-UCR Program's **Crime Index** translates into the number of offenses reported within the ten Index Crime categories as defined by the Federal UCR Program.

Criminal Homicide - The willful (non-negligent) killing of one human being by another.

Rape - Penetration of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim; attempts are included.

Robbery - The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or putting the victim in fear; attempts are included.

Aggravated Battery/Aggravated Assault - An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. It is not necessary that an injury results from the attack when a weapon is used that could cause great personal injury; attempts and attempted criminal homicide are included.

Burglary - The unlawful entry of a structure to commit a felony or a theft; attempts are included.

Theft - The unlawful taking, carrying, leading, or riding away of property from the possession of another; attempts are included.

Motor Vehicle Theft - The theft or attempted theft of a motor vehicle.

Arson - Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, or personal property of another; attempts are included.

Human Trafficking Commercial Sex Acts - Inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such acts has not attained 18 years of age; attempts are included.

Human Trafficking Involuntary Servitude - The obtaining of a person(s) through recruitment, harboring, transportation, or provision, and subjecting persons by force, fraud, or coercion into involuntary servitude, peonage, debt bondage, or slavery; attempts are included.

The **crime rate** indicates the prevalence of crime occurring across a given population. It is generally defined as the total number of Index Crimes per 100,000 inhabitants and is calculated as follows:

$$\frac{\text{Index Crime Count} \times 100,000}{\text{Jurisdictional Population}} = \text{Crime Rate}$$

The jurisdictional population can be that of a city, town, village, county, or state.

The **percent change** indicates the increase or decrease of the volume of statistics reported.

$$\frac{\text{Current Total} - \text{Previous Total}}{\text{Previous Total}} \times 100 = \text{Percent Change}$$

Index Crime Offense Classifications

In 2010, the I-UCR Program transitioned and became compliant with the Federal UCR Program's reporting guidelines. This transition significantly impacted the classification and scoring procedures agencies previously used in compiling Index Crime statistics.

Offenses occurring within a crime incident must first be classified into the appropriate offense category as defined by the Federal UCR Program. The federal definitions for the ten Index Crime categories can be found on page 6. The definitions do not, in all cases, mirror Illinois Compiled Statutes (ILCS) offense definitions. It is critical for an agency to review the definitions prior to submitting statistics to ensure only offenses meeting the definition are reported. This will avoid the potential to both over and under report offenses. The text below highlights how the differences between some of the Federal and ILCS offense definitions may impact crime statistic reporting.

Criminal Homicide - The ILCS has many homicide-related offenses; however, only first degree and second degree murder meet the federal offense definition and are reported.

Aggravated Battery/Aggravated Assault - The ILCS allows battery and assault offenses to be elevated to aggravated based on who the victim is (police officer, correctional officer, fireman, private security officer, teacher, emergency medical technician, disabled person, person age 60 years or older, or pregnant victim); where the incident took place (public way, public property, or sports or entertainment arenas when events are scheduled); or if the assailant conceals his identity (hooded, robed, or masked). If the battery or assault offense is elevated to aggravated based ONLY on one of the criteria above, the offense is not classified as aggravated and should not be reported.

Arson - The ILCS stipulates that the value of damaged property must be \$150 or more for an offense to be classified as an arson. The revised definition requires the reporting of any willful malicious burning or attempt to burn property as an arson without regard to the value of the property.

Burglary and Theft - There were no changes to the definition for either offense category. Historically, vehicle burglaries have been classified and reported as thefts. Many agencies were incorrectly classifying and reporting vehicle burglaries in the burglary category. The development of more detailed reporting guidelines coupled with a statewide training initiative resulted in a better understanding of the definition of burglary.

Rape - In 2014, the Federal UCR Program revised the definition of forcible rape to rape, requiring the collection of additional sex offenses. The revised definition was implemented by the I-UCR Program in the 2014 reporting year.

Forcible Rape - Carnal knowledge is defined as "the act of a man having sexual bodily connections with a woman; sexual intercourse."

Rape - Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. Force is not a required element.

Index Crime Offense Scoring

Once offenses in a crime incident have been classified, agencies are tasked with scoring or counting the number of offenses having occurred. The scoring of offenses requires the application of the Hierarchy Rule, Crimes Against Persons versus Crimes Against Property scoring rules, the Hotel Rule, and Separation of Time and Place Rule. Each of these scoring rules will have an impact by decreasing the number of offenses reported.

Hierarchy Rule

The order in which the Index Crime categories are listed on page 6 is significant, establishing the hierarchy order. Criminal homicide is ranked as the highest offense in the hierarchy order and theft is the lowest offense in the hierarchy order. If several offenses are committed within one incident, it is referred to as a multi-offense incident. The Hierarchy Rule requires that when a multi-offense incident has occurred, the agency must identify which of the offenses is the highest in the hierarchy order and report only that offense. The other offenses in the multi-offense incident are not reported. Motor vehicle theft, arson, and human trafficking offense categories are exceptions to the Hierarchy Rule.

In instances where a motor vehicle theft is reported along with an additional theft in a multi-offense incident, the motor vehicle theft is the only offense reported with no regard for the Hierarchy Rule. This exception only applies when motor vehicle theft and theft alone are the only offenses reported in a multi-offense incident.

If the offenses of arson or human trafficking occur in a multi-offense incident, the reporting agency must report the arson and/or human trafficking offense. The Hierarchy Rule is then applied to the remaining offenses to determine which offense is the highest in the hierarchy order. The arson and/or human trafficking offense and the highest-ranking of the remaining offenses must be reported.

Crimes Against Persons - Crimes Against Property

Categorizing an offense as a crime committed against a person or committed against property is the next step in scoring offenses. Criminal homicide, rape, aggravated battery/aggravated assault, human trafficking commercial sex acts and involuntary servitude are crimes against persons. For these categories, one offense is scored for each victim. The number of offenders involved in the incident is irrelevant. Robbery, burglary, theft, motor vehicle theft, and arson are crimes against property. For robbery and theft, one offense is scored for each distinct operation or attempt, regardless of the number of victims or offenders. For burglary, motor vehicle theft, and arson, each offense is scored independently.

Hotel Rule

Burglaries of hotel or motel rooms, lodging houses, spas, resorts, or other places where lodging is the main purpose are scored differently than other burglaries. If a number of rooms are burglarized over the same time frame, the burglaries are scored as one offense.

Separation of Time and Place

Separation of time and place means that the time interval between same offenses and the distances between locations where they have occurred are insignificant. Offenses must have occurred during an unbroken time frame and at the same or adjoining locations. In these cases the offenses are reported as a single offense. This rule is applied to the property crimes of theft and robbery only. It is not applied to crimes against persons, or the remaining crimes against property of burglary, motor vehicle theft, or arson.

Index Crime and Drug Offense Arrest Data

Historically, arrest data has not represented a 'clearance rate' for a specific law enforcement agency, a county, or for the state of Illinois as compared to the number of Index Crime offenses reported. Due to a variety of circumstances, an offense may be administratively or exceptionally cleared with no arrest. An example is an incident where a suspect commits a homicide and then commits suicide. An arrest for the homicide offense cannot be made; however, the incident is noted as cleared by one of the two aforementioned means.

Additionally, there are numerous guidelines that must be adhered to when reporting Index Crime arrests. The following guidelines, though not inclusive, represent a majority of the critical arrest reporting guidelines.

- Agencies report one arrest for each individual suspect arrested for a specific Index Crime offense, regardless of how many cases of the same offense may be cleared. Example: A suspect is arrested for six residential burglaries occurring over a four month period. Only one arrest for burglary is submitted.
- The Hierarchy Rule must be applied. If a suspect is arrested for multiple Index Crime offenses having occurred within a single incident, an arrest is submitted only for the most serious offense. Example: A suspect is arrested for home invasion and second degree murder. The only arrest submitted is the arrest for second degree murder.
- The exceptions to the Hierarchy Rule that apply to offense reporting are also applied to the reporting of arrests. Arson and human trafficking arrests are always reported, followed by the arrest for the most serious offense within the incident. Example: A suspect is arrested for arson, theft, and aggravated battery. An arrest is submitted for arson and aggravated battery.
- Arrest data is submitted for the month in which the arrest occurred, not for the month in which the offense occurred and was subsequently reported. An offense may have occurred in November 2016, and an arrest not made until May of the following year. The Index Crime offense is submitted and reflected in the 2016 report, and the associated arrest is submitted and reflected in the 2017 report.
- The guidelines governing the submission of Drug Offense arrests differ from Index Crime arrest reporting guidelines. Agencies submit the number of offenses in each drug category where an arrest has been made. One suspect may be arrested for possession of cannabis, possession of a controlled substance, and possession of drug paraphernalia. An arrest in each of the three categories is reported.
- *Effective July 29, 2016, the possession of 10 grams or less of cannabis and associated drug paraphernalia were no longer collected due to the decriminalization of these offenses. This legislative change was responsible for the decreased number of arrests in both categories.*

Due to the complexity of Index Crime arrest reporting guidelines, individual agency arrest statistics are not provided to prevent use of the data in an attempt to arrive at a clearance rate. Index Crime arrest data is, however, compiled for each county, and the state of Illinois. Drug Offense arrest statistics are similarly compiled.

INDEX CRIME & CRIME RATE DATA

Index Crime Offense & Crime Rate Data

This section primarily focuses on Index Crime offenses and arrests, and drug arrests reported to police. The Illinois Uniform Crime Reporting Program Index Crime offenses include the categories of criminal homicide, rape, robbery, aggravated battery/aggravated assault, burglary, theft, motor vehicle theft, arson, human trafficking commercial sex acts and human trafficking involuntary servitude. The state of Illinois Index Crime offense and arrest rate comparison for 2020 and 2019 are presented on page 15, followed on page 16 by the state of Illinois primary page.

The state of Illinois primary page provides a compilation of statistics reported by participating police departments, sheriff's offices, and statewide law enforcement agencies. Statistics include Index Crime offenses, arrests, and associated crime rates per 100,000 inhabitants; Drug Offense arrests; Domestic Offenses, Hate Crimes, and School Incidents.

Following the state of Illinois primary page is an alphabetical listing of primary pages for Illinois counties. County totals reflect crime data reported by police departments and the sheriff's office located within the county; however, data reported from state agencies is excluded. Below each county primary page is a listing of agencies within the county that submitted data for the 2020 and/or 2019 reporting years. The Sheriff's Office is listed first, unless the agency was non-compliant and did not submit data for the 2019 and 2020 reporting years. An alphabetical listing of the remaining agencies in the county that submitted data follows. The Index Crime rate, as well as Index Crime offense category totals are provided for each agency.

Caution should be exercised when reviewing and using this information. Many social factors related to crime and a community's population must be considered when making statistical comparisons. A community may have a small residential population but, a large transient population due to a substantial number of employers, motels, entertainment attractions, etc., within its jurisdiction. A large transient population is also prevalent in small communities located in metropolitan areas adjacent to Chicago and Saint Louis. A large transient population increases the potential for criminal behavior within a small jurisdiction. The resulting higher population-based crime rate does not compensate for a transient population. The final statistics can lend to the impression that crime is more prevalent due to the exclusion of the transient population in calculation processes. Additionally, the change in the number of agencies reporting 2020 statistics impacted county and state statistic totals when compared to the 2019 reporting year.

The footnote and acronyms in the county primary pages are defined as follows:

- **1** - "**Incomplete data**" indicates an agency did not participate in the I-UCR Program for one or more months (due to the agency being disbanded or created during the reporting year) or one or more monthly index reports were delinquent.
- **MCA** - indicates an agency whose jurisdiction involves more than one county. Offenses are sorted and reported by county of occurrence. Only offenses having occurred in the related county primary page are provided. Complete reports for an MCA agency can be found in Section V - Appendix.
- **V*** - indicates whether or not (Y or N) an agency verified 2020 statistics during the annual verification process.
- **N/C** - indicates unable to calculate.
- **--** - indicates an agency was noncompliant and submitted no data for the reporting year.

Index Crime Offense/Crime Rate Data

This section used population statistics available from the U.S. Bureau of the Census. The Federal Bureau of Investigation, who is the administrator of the Federal Uniform Crime Reporting Program, provided population statistics derived from U.S. Bureau of the Census resources for municipalities, county, and statewide populations.

Multi-county agencies are encouraged to report crime independently for each county; however, some continue to report total crime incident totals with no regard to county of occurrence. In these cases, the I-UCR Program has proportioned each of the multi-county agencies' crime rate, crime index total, and each of the ten Index Crime offenses based on the percentage of the population residing in each county. In some cases, the percentages may not sum to 100 due to rounding. Of the reporting agencies, there were 63 with I-UCR reporting jurisdictions located in more than one county (see pages 319-330 for a list of multi-county agencies).

Example:

A city with a population of 100,000 has 75,000 or 75.0 percent of its population in County 1 and 25,000 or 25.0 percent of its population in County 2. The total crime index offenses reported by the agency is 2,500.

The crime index has been computed as follows for County 1 and County 2:

Jurisdiction	County	Population	Calculation	Total Crime Index
City	County 1	75,000	$0.750 \times 2,500 =$	1,875
City	County 2	25,000	$0.250 \times 2,500 =$	625
	Total	100,000	Total	2,500

State Agencies

The table on the following page includes Index Crime offense data reported by state of Illinois law enforcement agencies. Due to nature of these agencies' state-wide jurisdiction, offenses are not reported by location of occurrence. Data submitted by these agencies is excluded from county totals; however, the data is included in the statewide totals.

DOMESTIC OFFENSES

Domestic Offenses

In 1996, the I-UCR Program began collecting Supplemental Data statistics. Supplemental Data encompassed the mandated reporting of Domestic Offenses and Attacks Against School Personnel, and the voluntary reporting of Crimes Against Children. In 2014, attacks against school personnel was transitioned to the newly created School Incident reporting element. Additionally, the voluntary reporting of crimes against children was discontinued. Supplemental Data was renamed Domestic Offenses, based on the sole remaining reporting element of statistics previously collected.

The reporting of Domestic Offenses is mandated by Chapter 50 of the Illinois Compiled Statutes, 709/5. A domestic offense is defined as any offense attempted or committed where a domestic relationship exists between the victim and offender. Reporting is not limited to the offenses of domestic battery, violation of order of protection, criminal sexual assault, and other offenses generally associated with domestic violence. Domestic relationship is defined as family or household members, including spouses, former spouses, parents, children, stepchildren and other persons related by blood or by present or previous marriage, persons who share or formerly shared a common dwelling, persons who have or allegedly have a child in common, persons who have or have had a dating or engagement relationship, and persons with disabilities and their personal care assistants or care givers outside the context of an employee of a public or private care facility. Prior to 2014, domestic disputes or disturbances when no offense occurred were reported. The collection of this type of domestic incident has been discontinued.

Due to software issues, injury and weapon types per offense is unavailable from the Chicago Police Department and is not represented in the tables to follow. Additionally, the percentages in the tables may not sum to 100 due to rounding.

HATE CRIME

Hate Crime Data

The reporting of select hate crime offenses is mandated by Chapter 50 of the Illinois Compiled Statutes, 709/5. A hate crime is committed when, by reason of the actual or perceived race, color, creed, religion, ancestry, gender, sexual orientation, physical or mental disability, or national origin of another individual or group of individuals, a person commits an offense against the individual or group of individuals. Additionally, the Hate Crime Statistics Act of 1990 mandates the reporting of hate crime offenses to the Federal Uniform Crime Reporting (UCR) Program, administered by the Federal Bureau of Investigation (FBI).

An important qualifier must be present when reporting a hate crime. The fact that the offender is biased against the victim’s race, religion, disability, sexual orientation, or ethnicity/national origin does not mean that a hate crime occurred. The offender’s criminal act must have been motivated by his bias. Before an offense can be reported as a hate crime, sufficient facts must be present to lead a reasonable person to conclude that the offender’s actions were motivated by their bias. Acts of vandalism (graffiti being the most common) are reported only when the owner of the property vandalized is a member of the bias group targeted. Graffiti may be reported as assault if a member of the bias group cannot avoid the graffiti and is fearful for his/her safety.

The Federal UCR Program’s offense definitions do not always align with Illinois Compiled Statutes (ILCS) offense definitions. Example: The ILCS offense of battery equates to the Federal UCR Program offense of assault. This creates the potential for discrepancies between hate crime statistics published in the annual Crime in Illinois versus Crime in the United States publications.

Several enhancements were implemented in 2014 to the hate crime reporting process. There was a significant increase in the number of locations that could be reported to identify where the incident took place, and the addition of gender-related bias motivations. Additional religious-related bias motivations were added in 2015.

**SCHOOL
INCIDENTS**

IV

School Incidents

Historically, Illinois law enforcement agencies have been mandated by the Illinois Compiled Statutes (ILCS) to report attacks against school personnel to the I-UCR Program. In the 2014 reporting year, attacks against school personnel were transitioned from Supplemental Data reporting to the newly created School Incidents reporting. The School Incidents reporting category was implemented to attain compliance to the ILCS mandated collection of attacks against school personnel, intimidation incidents, drug incidents, and firearm incidents which occurred in public and private schools.

Schools, public and private, are also mandated by the ILCS to report these types of incidents to local law enforcement agencies. Agencies are only accountable for reporting incidents that are reported to them by schools within their jurisdiction. It is not the responsibility of the law enforcement agency to enforce reporting mandates.

Attacks Against School Personnel

The reporting of attacks against elementary and secondary school personnel is mandated by Chapter 50, 709/5 and Chapter 105, 5/10-21.7 of the ILCS. Select offenses committed against teachers, administrative personnel, and other school personnel are reported. Offenses constituting an attack are criminal homicide, criminal sexual assault, aggravated battery, aggravated assault, battery, and assault. The number of victims for each offense is reported.

Prior to 2014, reporting was limited to incidents when a student was the offender. This constraint has been eliminated. The offender can be a student, parent, other school personnel, or a complete stranger. The offense need not have occurred on school grounds or during the academic school day, as long as the victim was acting in an official capacity. Attacks that occur when the victim is not acting in an official capacity are only reported when motivated by actions taken previously by the victim while acting in an official capacity.

The reporting of intimidation is mandated by Chapter 50, 709/5 and Chapter 105, 5/34-84a.1 of the ILCS. Reporting is not limited to those incidents where the victim was a teacher, administrator, or other school personnel. Intimidation offenses when a student is the victim must also be reported. Bullying and offenses such as cyberstalking, stalking, and compelling organization membership could be considered forms of intimidation; however, reporting is limited to the offenses of aggravated intimidation, intimidation, and educational intimidation.

An arrest is not required to report an attack against school personnel or intimidation. Incidents handled administratively must be reported to the I-UCR Program.

Drug Incidents

Drug-related incident reporting is mandated by Chapter 50, 709/5 and Chapter 105, 10-27.1B of the ILCS. The reporting of drug incidents is limited to those occurring on school-owned or leased property or any conveyance used by the school for the transport of students. Reporting is not limited to incidents occurring during the academic school day; however, the incident must have occurred during a school sanctioned activity or shortly thereafter. The suspected offender does not have to be a student and the identity of the offender can be unknown.

School Incidents

Drug incidents reported include offenses in the Cannabis Control Act, Controlled Substance Act, Hypodermic Syringe and Needle Act, Drug Paraphernalia Act, and Methamphetamine Act. Additionally, cannabis civil violations are reported. Each category of drug involved in an incident is reported. Multiple drug categories could be reported for one incident. An arrest is not required to report an incident. Drug incidents handled administratively must be reported to the I-UCR Program.

Firearm Incidents

The reporting of select firearm incidents in schools by law enforcement agencies is mandated by Chapter 50, 709/5 and Chapter 105, 5/34-8.05 of the ILCS. The reporting of firearm incidents is limited to those occurring on school-owned or leased property or any conveyance used by the school for the transport of students. Reporting is not limited to incidents occurring during the academic school day; however, the incident must have occurred during a school sanctioned activity or shortly thereafter. The suspected offender does not have to be a student and the identity of the offender can be unknown. Required reporting also includes incidents when firearms are discovered on school-owned or leased property or any conveyance used by the school to transport students.

Firearm incidents are reported by identifying the type and number of firearms in the incident. There are four primary categories of firearms: handgun, long gun, look-alike/toy/fake firearm, and unknown type of firearm. Handgun and long gun each have three subcategories. An incident involving a firearm that is not in working condition must be reported in the appropriate category; however, incidents involving firearm parts are not reported. Incidents involving ammunition, silencers, scopes, clips, or magazines are not reported if there was no firearm involved in the incident.

Each firearm involved in an incident is reported in the appropriate category. Multiple firearms could be reported for one incident. An arrest is not required to report an incident. Firearm incidents handled administratively must be reported to the I-UCR Program.

Report Considerations

If an agency reported, at minimum, one incident involving attacks against school personnel, drugs, or firearms, the agency is included in the tables following the statewide tables on the adjacent page. The statistics are provided alphabetically by county. Following the tables are two agency listings. The first is an alphabetical listing of agencies who were compliant and reported School Incidents; however, no incidents occurred within the reporting year. The second is an alphabetical listing of agencies exempt from School Incident reporting.

An agency is determined to be exempt if the agency meets either of the following criteria. If there are no schools located within the agency's jurisdiction, the agency is exempt. There are many small police departments who have no schools located within their jurisdiction. If the agency is not the primary law enforcement responder to incidents having occurred at a school located within the agency's jurisdiction, the agency is exempt. Schools throughout a county are within the jurisdiction of the sheriff's office; however, the primary law enforcement response to an incident generally originates from the local police department. If there are no schools located in the county outside the jurisdiction of local police departments, the sheriff's office is exempt.

SUPPLEMENTAL HOMICIDE REPORTING

Supplemental Homicide Reporting

Supplemental Homicide Reporting, the reporting of supplemental data related to homicide offenses, began with the 2016 reporting year as mandated by Chapter 50 of the Illinois Compiled Statutes, 709/5. Homicide offenses included in Supplemental Homicide Reporting are involuntary manslaughter and justifiable homicide, in addition to the homicide offenses of first and second degree murder reported in Index Crime. Due to the increase in the types of homicide offenses included in reporting, the number of Supplemental Homicide Report victims exceeds the number of homicide offense victims reported in Index Crimes.

The reporting guidelines for Supplemental Homicide Reporting are compliant to the Federal Uniform Crime Reporting (UCR) Program, administered by the Federal Bureau of Investigation. Data elements collected in Supplemental Homicide Reporting include: the type of homicide offense; the circumstances surrounding the homicide; the number of victims and offenders; the age, sex, race, and ethnicity of each victim and offender; the weapon used in the commission of the homicide, and the relationship of the victim(s) to the offender(s). In many homicide offenses, an agency's preliminary investigation cannot provide all of the required data elements. Homicide offenses must still be reported and the agency is responsible for adjusting the record as the investigation progresses and information is made known.

Note: The totals in the tables on the following pages will not always be equal to each other nor the total homicide incidents reported. Data elements are reported for each victim(s) and offender(s). Examples: One offender could be responsible for the stabbing death of two victims. The weapon knife would be accounted for twice, once for each victim. Two offenders could be responsible for the shooting deaths of two victims. The firearm would be accounted for four times, once for each of the victims, multiplied by the two offenders.

Supplemental Homicide Reporting is submitted to the Federal UCR Program. Select data elements are included in the Federal UCR Program's annual publication, Crime in the United States.

First and Second Degree Murder Circumstances

Circumstance	
Rape	1
Robbery	65
Larceny—Theft	3
Arson	3
Burglary	5

Strangulation	10
Asphyxiation	1
Other Weapon	30

**CUSTODIAL OR
ARREST-RELATED DEATHS**

VI

Custodial or Arrest - Related Deaths

Chapter 50 of the Illinois Compiled Statutes, 709/5, mandates the collection of information regarding a custodial or arrest-related death. The reporting guidelines mirror many of the concepts employed by the United States Department of Justice in collecting data mandated by the Death in Custody Reporting Act of 2013. The Act requires states that receive certain Federal criminal justice assistance grants to report information regarding the death of any person who is detained, arrested, enroute to incarceration, or incarcerated.

Custodial or arrest-related deaths are defined as homicides, suicides, accidental deaths, and deaths due to intoxication or medical conditions that occur during one of the four categories of civilian interactions with a law enforcement officer, on or off duty. The four categories are:

- While a person is detained or shortly after a person's freedom to leave is restricted.
 - All deaths that occur while a person is being detained must be reported. Although a majority of the deaths reported involve criminal suspects, individuals not considered subjects of arrest can be detained by law enforcement. Examples include pedestrian and vehicle stops.
 - All deaths that occur shortly after a person's freedom to leave is restricted must be reported if the circumstances causing the death occur during the interaction with the officer. If a person detained sustains an injury during interaction with an officer, and later died as a result of those injuries, the death must be reported.
 - Law enforcement often assists in the transportation of an individual requiring medical or mental health assistance. The death of a non-criminal person that occurs in the custody of law enforcement personnel in these circumstances is not reported.
- During an attempted arrest or in the process of arrest.
 - All deaths that occur during an interaction with an officer in the process of arrest or attempted arrest must be reported. This includes those that occur during foot pursuits, or standoff and barricaded situations. Deaths that are the result of a vehicular pursuit are only reported if there was direct police action (road blocks, spike strips, or ramming of the offender's vehicle) that contributed to the fatal crash.
 - Deaths that occur during interviews and interrogations, or while a person is detained for questioning must be reported. These deaths may have taken place at a law enforcement facility or in the field and include those attributed to alcohol and drug intoxication, sudden fatal medical conditions, choking on ingested objects, and suicides.
 - Deaths caused by an officer's use of restraint tactics must be reported. These include fatal injuries caused by: physical fighting or struggle with the officer; positional asphyxia or restraint in a prone position; use of control holds or neck restraint; and complications due to body compression.

- While a person is in custody (before incarceration).
 - Deaths that occur after a law enforcement officer has established physical custody of an arrestee must be reported.
 - In-custody deaths are those that have occurred at the scene of an incident; during transport of a criminal suspect; or while a suspect is being held at a booking facility or temporary detention/lockup center.
- While a person is incarcerated.
 - Deaths that occur when an offender has been incarcerated in a municipal or county jail must be reported by the agency responsible for administering the jail. Included are deaths that occur in juvenile facilities.
 - Deaths that occur when an incarcerated offender is outside of the jail parameters must be reported. In most circumstances, the death of the offender is reported by the agency responsible for the administration of the jail. This includes deaths that occur when an offender is being transported to or appears in court; and transported to, seeking treatment at, or admitted to a medical facility. An exception would be when the actions of a law enforcement officer from another agency are responsible for the offender's death.

Data elements collected in Custodial or Arrest-Related Deaths include:

- Age, sex, race, and ethnicity of the deceased.
- Age, sex, race, and ethnicity of the officer(s) involved unless the death is due to a medical condition, suicide, or caused by someone other than an officer.
- Manner of death: homicide by officer (justifiable homicide, criminal homicide, or not able to determine until investigation has been completed which can take up to a year), justifiable homicide or criminal homicide by another, suicide, accidental injury resulting in death caused by self or another, accidental alcohol poisoning or drug overdose, or medical condition.
- Charges against the deceased: pre-existing, intended, probation or parole violation, or none when the incident involved a medical or mental health call for assistance.
- Cause of death: medical condition, injuries sustained during the incident, or both medical condition and injury sustained during the incident.
- Used by officer(s) during arrest process: handcuffs, leg shackles, pepper spray or mace, nightstick or baton, stun-gun or Taser, other device, or none.
- Characteristics of deceased: exhibit mental health illness, under the influence of drugs, intoxicated, verbally threaten officer(s), resist being handcuffed or arrested, attempt to flee or escape from custody, attempt to disarm officer(s), and assault or batter the officer(s).
- Weapon associated with the deceased: weapon possession, use of a weapon to threaten officer(s) or other persons, use of a weapon to injure officer(s) or other persons, and intelligence information (i.e. deceased known to carry weapon).
- Location: at the incident/crime/arrest scene, enroute to or at a booking center or police lockup, temporary holding facility, city or county jail, or medical facility.

Custodial/Arrest-Related Death data has been divided in to two sections: incarceration deaths and deaths prior to incarceration.

Incarceration Deaths

There are five subcategories of incarceration deaths: death occurring in the jail due to illness, homicide committed by another detainee, death due to drug overdose, suicide, and death occurring in a hospital after a detainee was transported due to illness. There were no homicides committed by another detainee reported.

- Death occurring in the jail due to illness.
 - Average age of detainee was 45 years of age.
 - Six white males and five black males died due to illness.
 - Three detainee died within 24 hours of incarceration, three detainees died after 2 days of incarceration, two detainees died after 16 days of incarceration, one detainee died after 144 days of incarceration, and two detainees died after being incarcerated for over one year.
- Death occurring in the jail due to drug overdose.
 - Average age of detainee was 26 years of age.
 - Two black males and one white female died due to a drug overdose.
 - One detainee died after 4 days of incarceration, one detainee died after 275 days of incarceration, and one detainee died after being incarcerated for over one year.
- Death occurring in the jail due to detainee suicide.
 - Average age of detainee was 37 years of age.
 - Three white males and three black males committed suicide while incarcerated.
 - The cause of death in the suicides was strangulation due to hanging.
 - Two detainees died after 2 days of incarceration, one detainee died after 7 days of incarceration, one detainee died after 11 days of incarceration, one detainee died after 22 days of incarceration, and one detainee died after 127 days of incarceration.
- Death occurring in a hospital due to illness after detainee was transported from the jail.
 - Average age of detainee was 39 years of age.
 - One white male and one white female died due to illness after being transported from a jail to a medical facility or hospital.

Deaths Prior to Incarceration

A majority of the reported deaths prior to incarceration occurred at the scene of the incident, crime, or arrest. Other circumstances included while enroute to or at a medical facility.

Officer Information

The average age of officers involved in the death of an offender prior to incarceration is 39 years of age, with an average of 11 years experience as a law enforcement officer. Of those officers, 100.0% are male and 0.0% are female, 91.3% are white, and 8.7% are black. Hispanic is the ethnicity of 17.4% of these officers.

Deceased Information

Eight White males, eleven Black males, one Asian male, three White females, and one Black female died prior to incarceration. Three of the deceased were of Hispanic ethnicity. The average age of the deceased was 31 years of age.

Age of Deceased	
Less than 20 years of age	3
20-29 years of age	9
30-39 years of age	8
40-49 years of age	2
50-59 years of age	2

Characteristics or Actions of Deceased	
Appear Under the Influence of Drugs	3
Appear Intoxicated	1
Exhibit Signs of Mental Illness	2
Verbally Threaten Officers	0
Resist Handcuffs or Arrest	8
Attempt to Flee or Escape	9
Attempt to Batter or Batter Officer	3
Assault Officer	6
Carry Possess Weapon	15
Use Weapon to Threaten Officer(s)	7
Use Weapon to Threaten Other(s)	2
Injure Officer(s) with Weapon	2
Injure Other(s) with Weapon	4
No Weapon	9
Intelligence 'known to carry firearm'	3

Charges

All of the deceased had intended criminal charges resulting from the offenses identified in the table below that occurred during the incident. Eight of the deceased had pre-existing charges as well as additional intended charges.

Offenses	
Homicide	0
Kidnapping	2
Robbery	1
Aggravated Battery	11
Aggravated Assault	2
Battery	2
Criminal Damage/Trespass to Property	2
Motor Vehicle Theft	2
Theft	0
Resisting, Obstructing, Disarming Officer	5
Other Weapon Offense	7
Other Felony	5
Other Misdemeanor	3
Drug Offense	2
Traffic Offense	4
Wanted on Warrant	3

Cause of Death

Injuries inflicted by an officer's use of a firearm at the scene were responsible for 12 deaths. Three deaths were attributed to a medical condition. Two deaths were attributed to accidental alcohol/drug intoxication. Two deaths were attributed to accidental injury. Suicide accounted for five deaths.

Used by Officer(s) at the Incident Scene	
Handcuffs	5
Leg Shackles	0
Pepper Spray/Mace	0
Nightstick or Baton	0
Electronic Control Weapon (Stun-gun/Taser)	3
Other Device	3
None/Does Not Apply	14

Manner of Death	
Justifiable Homicide by Officer	5
Homicide by Officer	1
Homicide by Officer Not Yet Determined if Justifiable	6
Accidental Injury by Self/Other	2
Suicide	5
Accidental Alcohol/Drug Intoxication	2
Medical Condition	3

Location of Death	
At Incident/Crime/Arrest Scene	16
Enroute to Medical Facility	5
Medical Facility	3

**OFFICER NON-FATAL
SHOOTINGS**

VII

Officer Non-Fatal Shootings

Chapter 50 of the Illinois Compiled Statutes, 709/5, mandates law enforcement agencies report to the I-UCR Program, incidents when a law enforcement officer discharges his or her firearm causing a non-fatal injury to a person during the performance of his or her official duties or in the line of duty. Firearm is defined as handgun, shotgun, or rifle. The injury incurred by the person does not need to be significant. A slight grazing from the projectile is sufficient cause to report the incident. Incidents when a bystander is an unintended victim of a shooting are also reported.

The following incidents are not reported as officer non-fatal shootings:

- Incidents when an officer discharges his/her firearm, but it does not result in an injury to the intended target or any other individual at the scene of the incident.
- Incidents when an officer accidentally discharges his/her firearm resulting in an injury to an individual.
- Incidents using what is considered to be a non-lethal weapon with rubber bullets or sandbags as projectiles.

Officer non-fatal shootings reporting was first mandated in 2017, with 722 Illinois law enforcement agencies reporting. Of the 27 incidents reported for 2020, two incidents involved two officers, one incident involved three officers, and the remaining 24 incidents involved only one officer.

**LAW ENFORCEMENT
EMPLOYEES**

VIII

Law Enforcement Employment Information

In 2020, 345 Illinois law enforcement agencies submitted law enforcement employment data presented in this section. Data consists of the number of part- and full-time sworn officers, full-time civilian employees, and auxiliary officers employed by each reporting agency as of October 31, 2020. The part- and full-time sworn officer category includes the number of sworn personnel with full arrest powers (includes chiefs, sheriffs, commissioners, superintendents, etc.) who are paid by their agency or federal grant funds. The full-time civilian category includes civilian employees (clerks, stenographers, telecommunicators, mechanics, civilian jail personnel, sworn jail personnel with no arrest power outside of the jail, etc.) who are paid by their agency or federal grant funds. The auxiliary officer category includes those officers, such as an auxiliary or reserve officer, who are subject to report in an emergency situation, and who are not paid by their agency or federal grant funds. Auxiliary officers paid by their agency or federal grant funds are accounted for under the part-time sworn officer category.

The employment rate for law enforcement personnel is calculated as follows:

$$\frac{\text{Number of Employees}}{\text{Jurisdictional Population}} \times 1,000 = \text{Employment Rate}$$

EXAMPLE:

A department with 60 employees and a population of 51,000 has an employment rate of 1.2 per 1,000 inhabitants:

$$\frac{60}{51,000} \times 1,000 = 1.2 \text{ Rate per 1,000 Inhabitants}$$

Law enforcement employment rates should not be directly compared to index crimes, non-index offenses, or the service-related activities performed by law enforcement officers. Service-related activities can account for a significant percentage of an officer’s workload on any given day, and usually remain unpublished. Each community should consider all the factors related to the causes of crime and determine the role of the law enforcement department relative to crime and to required services.

Law Enforcement Employment Information

The total number of personnel as reported by 345 Illinois law enforcement agencies in 2020 is 38,017 employees. An aggregate population of 8,765,274 is represented by the reporting agencies. The resulting employment rate is 4.3 law enforcement employees per 1,000 inhabitants. Reporting agencies include municipal police departments, miscellaneous police departments (airports, colleges and universities, fire department arson investigators, forest preserves, park districts, and railroads), sheriffs' offices, and statewide law enforcement agencies.

The 26,407 full-time sworn officers in 2020 account for 69.5 percent of the reporting agencies' law enforcement work force. The 1,032 part-time sworn officers employed in 2020 comprise 2.7 percent of the reporting agencies' law enforcement work force. The 10,020 full-time civilians in 2020 account for 26.4 percent of the reporting agencies' law enforcement work force. There were 558 auxiliary officers active in 2020, accounting for 1.5 percent of the reporting agencies' law enforcement work force.

In the tables on the following pages, the number of employees and population for each reporting agency is provided to allow for the calculation to determine the employment rate per 1,000 inhabitants. Miscellaneous police departments and statewide law enforcement agencies do not have a population and employment rates cannot be calculated for these agencies.

2020 LAW ENFORCEMENT EMPLOYEES

(As of July 11, 2020. Listed alphabetically by county.)
